Experience

Software Engineer

Intrasoft • Jun 2022 - Present

React developer specializing in custom apps for customs using TypeScript, Redux, Slice and Saga.

- Proficient in TypeScript, enhancing code quality and error prevention.
- Expertise in Redux for efficient state management in complex applications.
- Skilled in managing asynchronous operations with Redux Saga.
- Collaborated with design teams for intuitive user interfaces.
- Active participant in code reviews and collaborative development.
- Tailored apps to meet unique needs of customs operations.

Salesforce Engineer

Deloitte • May 2021 - Jun 2022

Working on CRM systems of automotive manufacturers:

- Frontend: Developing re-usable components with LWC framework
- Backend: Implementing business logic with Apex triggers and controllers
- Configuration: Adjusting Salesforce capabilities based on client needs
